GARO is committed to environmental responsibility and regulatory compliance. This certificate confirms that all products, including our imported LED lighting range sold under the GARO brand, meet the requirements of the RoHS Directive. For details on SVHCs like lead, see our REACH Compliance Statement.

We, GARO AB, hereby confirm that all our products meet the requirements of the RoHS 2011/65/EU directive of the European Parliament and of the Council of June 8th, 2011 on the restriction of the use of hazardous substances in electrical and electronic equipment, as well as the delegated directive 2015/863/EU.

According to the RoHS 2011/65/EU directive, lead is permitted in copper alloys up to a mass fraction of 4% and in steels of a maximum of 0.35% mass fraction. We confirm that our products, including LED lighting components such as contacts, terminals, and mechanical elements, meet these requirements.
